TutoConnect

User Stories: Sprint 2

Section 7, Group 4

Principle of software engineering

ID	Role	User Story	Priority	Acceptance Criteria
1	Student	As a student, I want to see a dashboard when I log in so that I can easily access saved tutors, upcoming sessions and recommendations.	Must Have	Student redirected to the dashboard page after login. Dashboard shows student name, upcoming sessions, and recommended tutors.
2	Tutor	As a tutor I want to see a dashboard when I log in so that I can update my information at any time.	Must Have	Tutor dashboard shows: profile view counts, earnings summary, availability, settings and upcoming sessions.
3	Tutor	As a tutor, I want to see a tutor, I want an Edit button on my so that I can update my information at any time.	Must Have	Edit Profile button is present on the dashboard and links to the profile edition form.
4	Student	As a student, I want to view a tutor's public profile so that I can see their qualifications, subjects, languages, and rating before contacting them.	Must Have	Tutor Public Profile displays name, photo placeholder, subjects, languages and a contact button.
5	Student	As a student, I want to read reviews about a tutor so that my tutor's choices will be well guided before booking.	Should Have	Reviews tab is visible on tutor public I Profile. Clicking it shows written feedback and tar ratings from past students.
6	Student	As a student, I want to view and edit my own profile so that I can keep my information up to date.	Should Have	Personal details, level of studies, subjects and languages spoken by student appear on profile page. Edit Profile button is present.
7	Student	As a student, I want to see my session history on my profile so that I can track my past tutoring sessions.	Could Have	Session history section present on student profile page.
8	Student/Tutor	As a user, I want a Setting Panel so that I can change my account details, preferences, and privacy options at any time.	Must Have	Settings Panel shows account settings, preferences, privacy and a section to deactivate the account.
9	Student/Tutor	As a user, I want to change my password from the settings panel so that I can keep my account permanently secure.	Must Have	Password change fields present. Current Password required before updating.
10	Student/Tutor	As a user, I want to set my notification privacy and preferences so that I can control the communication between the platform and me.	Should Have	Presence of notifications toggle and profile visibility toggle in Settings Panel.

11	Administrator	As an administrator, I want a dashboard so that I can quickly access the platform management ecosystem.	Must Have	Admin dashboard shows total users, active tutors, monthly sessions, and monthly revenues.
12	Administrator	As an administrator, I want to view a log register of the users so that I can monitor who is using the platform.	Must Have	User management page shows a table of all users with name, email, role, status, join date.
13	Administrator	As an administrator, I want to deactivate or reactivate user account so that I can moderate the platform.	Must Have	Presence of activate and Deactivate buttons. Updates of account.
14	Administrator	As an administrator, I want to review tutor's qualification documents and reject or approve so that only verified tutors appear is search results.	Must Have	Admin can review documents then approve or reject the tutor profiles. Status badge updated accordingly.

Functional Requirements

1. Student dashboard with name, saved tutors, tutor recommendations and upcoming sessions after login.
2. Tutor can see the profile views, the earnings, the availability and upcoming sessions after login.
3. Tutor can set their weekly availability and update it from their dashboard.
4. Students can view a tutor's public profile showing name, subjects, languages, qualifications, years of experience, rating, and a Contact button.
5. Students can see review tab on the tutor profile showing feedbacks from users that once booked the tutor.
6. Students can view and edit their own profile including name, subjects, level of studies, and languages.
7. Students can view their session history on their profile page.
8. Users should be able to set a profile picture, update their emails, password and usernames from the Settings panel.
9. Users should be able to set language and notification preferences from the Settings Panel.
10. Users should have the option to set profile visibility and choose whether to show or hide their email address
11. Administrators see a dashboard showing total users, active tutors, monthly sessions, and monthly revenue
12. Administrators can view all registered users with filtering by role and status
13. Administrators can deactivate and reactivate user accounts

14. Administrators can review tutor qualification documents and approve or reject pending tutor accounts

Non-Functional Requirements

1. Dashboard pages must load within 3 seconds after login
2. Profile edits must be reflected immediately without a full page reload
3. The tutor public profile must be accessible to any logged-in student without additional permissions
4. Settings changes must be confirmed with a success message before the user navigates away
5. Profile pictures must be stored securely and served over HTTPS
6. All edited fields in the Settings Panel must be validated before saving
7. Availability settings must prevent double-booking by blocking overlapping time slots
8. All dashboard and profile pages must follow the same layout and style as Sprint 1 screens
9. The Settings Panel must require the current password before allowing a password change
